Merging Algorithms Exercises

merge()

- Describe the merge function
- What arguments does reverse() take?
- Write a simple program that uses merge()

set_intersection()

- Describe the set_intersection function

- What arguments does set_intersection() take?

- Write a simple program that uses set_intersection()

set_union()

- Describe the set_union function

- What arguments does set_union() take?

- Write a simple program that uses set_union()
